EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eric Nelson on October 10, 2007.

The application has been amended as follows:

--- Claim 1. A golf club head, comprising:

a body combination having a body frame structure defining a first portion of an outer surface of the golf club head and at least one body aperture, said body frame structure encompassing an aperture filler matrix;

wherein an outer surface of said aperture filler matrix is at least partially in contact with an inner surface of said body frame structure, wherein an inner surface of said aperture filler matrix defines a hollow space, and wherein the outer surface of said aperture filler matrix defines a second portion of the outer surface of the golf club head;

a tuning weight attached to an interior surface of said body combination;

a faceplate; and wherein

said body frame structure having a faceplate aperture distinct from said at least one body aperture, said faceplate aperture providing access to said hollow space and said tuning weight, said faceplate aperture further comprising a perimeter substantially coincident with said faceplate, said faceplate aperture further comprising a faceplate receiving ridge upon which said faceplate is detachably retained on said body frame structure.---

Allowable Subject Matter

Claims 1, 2, 4, 6, and 7 are allowed.

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is the inclusion of the outer surface of the aperture filler matrix providing a portion of the outer surface of the golf club head in combination with the additional limitations of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
